

# Join the Clear Leader in Business Intelligence and Balanced Scorecard!

Looking for a challenge?

Want to grow your career through an exciting opportunity?

Hire8 Corporation is seeking

## SAS 9 Business Intelligence Consultants

for a local area project.

Our client is the Leader in the Delivery of award-winning Business Intelligence and Balanced Scorecard applications. Through a unique combination of SAS Institute software and their own tools, our client has successfully delivered advanced Dashboards, Balanced Scorecards, and meaningful graphics into the hands of client Executives.

They are currently seeking contract-to-hire hands-on technical people that can design, develop, install and enhance applications built on the SAS 9 Business Intelligence platform.

### The person filling this position will:

- Participate in the development and implementation of SAS BI architectures;
- Assist other systems engineers in requirements analysis and management;
- Build processes and systems using SAS ETL/Studio, Enterprise BI Server, Information Delivery Portal, Enterprise ETL Server, Web Report Studio, Management Console;
- Develop dashboards and SAS OLAP cubes;
- Recommend improvements to customer's business processes; and
- Provide balancing, tuning, and performance recommendations.

Hire8 Corporation is paying referral fees of up to \$3000 for SAS 9 BI people! No limit on number of referrals.
